Exhibit B

The laws of the State of Texas contain provisions which allow the City of Houston, Texas to annex the District. A municipality of the State of Texas, including a Home Rule City, that annexes all of the area in a municipal utility district must take over all property and other assets of the district and assume all the debts, liabilities and obligations of such district, and perform all the functions of the district, including the provision of services. When a district is annexed and dissolved and the obligations thereof payable in whole or in part from ad valorem taxes become obligations of the annexing municipality, the governing body of such municipality is thereafter required to levy and collect taxes on all taxable property in the municipality sufficient to pay the principal of an interest on the bonds, warrants or other obligations of the district as they come due.
